REACHIT

Job Summary

Vacancy:

Deadline: Mar 06, 2025 Published: Feb 06, 2025

Employment Status: Full Time

Experience: 3 - 5 Years Salary: To be defined

Gender: Any

Career Level : Mid Level

Qualification:

Responsibilities

- Collaborate actively on topics related to SASE (Secure Access Service Edge).
- **Cybersecurity Tool Management**: Manage and maintain cybersecurity tools, ensuring they are up-to-date, operational, and properly configured to mitigate risks effectively.
- **Support**: Provide support in the operation, troubleshooting, and optimization of cybersecurity tools and systems.
- **Incident Response**: Participate in cyber incident response activities, collaborate with the SOC (Security Operations Center) and CERT (Computer Emergency Response Team) to swiftly address security incidents and minimize impact.
- **Security Configuration**: Implement and enforce security configurations for various cybersecurity tools, systems, and infrastructure components to enhance overall security posture.
- **Documentation and Reporting**: Maintain accurate documentation of configurations, procedures, and incident response activities. Generate regular reports on the performance and effectiveness of cybersecurity tools and systems.
- **Collaboration and Training**: Collaborate with cross-functional teams to ensure alignment of cybersecurity initiatives with business objectives. Provide training and guidance to internal teams on best practices for cybersecurity tool usage and incident response procedures.

Requirements:

- Bachelors degree in computer science, Information Security, Network, or related field.
- High level English required.
- Proven experience (**>3 years**) in a cybersecurity role, with a focus on managing and supporting cybersecurity tools and systems.
- Hands-on experience with **cybersecurity/network tools and technologies** such as Firewalls/FWaaS, Proxy, Message gateways, CASB, VPN, SWG, DLP, ZTNA, SDWAN, PAM, etc.
- Experience in **SASE** (Secure Access Service Edge) technology is a real plus.
- Understanding of cybersecurity principles, protocols, and best practices.
- Experience in incident response activities, including analysis, containment, and recovery is a real plus.
- Excellent communication and collaboration skills, with the ability to work effectively in cross-functional teams.

About the company:

Reach IT empowers businesses through tailored IT solutions, focusing on impact and talent development. Their services include:

- 1. **Outsourcing Team**: Scalable, on-demand expertise to bridge talent gaps and ensure operational excellence.
- 2. **Product Delivery Team**: End-to-end product development with agile innovation and quality assurance.
- 3. **Hub Partner in Portugal**: Strategic partnerships to help businesses expand, share expertise, and drive growth.

They deliver results, accelerate product roadmaps, and enable industry leadership.
