Job Description

Responsibilities:

- Experience in negotiating and **dealing IT contracts** (Minimum 7 years work experience).
- Experience in negotiating with SaaS providers and integrators.
- Strong **knowledge of sourcing levers and processes** from specifications to contracting.
- Proficient in **MS office** (Excel/ Word/ PowerPoint).

Requirements:

Saint-Gobain is in need of expertise in the field of **Lead Buyer Software**. Our project requires a minimum of **7 years** of experience in negotiating and managing software contracts.

We are also seeking proficiency in dealing with SaaS providers and integrators. A deep understanding of sourcing processes is essential for this project. Additionally, proficiency in **Microsoft Office (Excel / Word / Powerpoint) is a must**.

We are looking forward to collaborating with an expert buyer who can bring his skills to our project and help us achieve our goals.

About the company:

Saint-Gobain is a **French multinational company**. Founded in 1665 by the French politician Jean-Baptiste Colbert to manufacture flat glass under the name La Compagnie des Glaces, it produced the famous mirrors of **the Palace of Versailles**.
