Job Description

Responsibilities:

- Daily monitor the **capital situation** using an inhouse approach,
- Contribute to the capital planning for the firm,
- Further automate **monitoring processes and implement additional controls**; maintain the inhouse reporting tool, manage change requests with IT,
- Prepare **capital adequacy and related regulatory reports** for Partners (Basel III/ IV),
- Support the onboarding of Partners and the implementation of related requests,
- **Keep track of regulatory developments** by identifying and analysing relevant changes,
- Maintain the vendor software installation for regulatory reporting by collaborating with inhouse IT and liaising with the software vendor.

Requirements:

- Degree **in finance with quantitative focus or other quantitative degree** (physics, mathematics, computer science, financial mathematics, etc.),
- **4 years+ of experience in a similar role in the finance industry**, ideally covering structured products,
- Strong interest in capital adequacy topics where in-depth knowledge of the **Basel framework** is an advantage,
- Strong analytical skills and preference to work with **complex IT systems**,
- Thorough understanding of derivatives and financial markets,
- **Willingness to analyse problems** and work with considerable accurateness,
- Output-driven while having high quality standards,
- Proactive, dynamic, independent, and reliable personality,
- Team player with strong interpersonal and communication skills,
- Ability to learn new concepts and tools,
- Proficient in the use of **Microsoft applications, particularly Excel**,
- Fluent in **English** Nice to have,
- **German** would be a plus.
