Job Description

Responsibilities

• Collaborate with our team to **design and develop scalable** and reliable web applications;
• Implement and maintain **new features on our platform**, making testing a priority;
• Maintain clear documentation of your work and implement quality assurance checks.

Requirements:

• You are a quick-learning, resourceful and reliable individual who appreciates working in a fast-paced environment where you can grow a lot.
• You have at least at least **4 years** of experience building web applications using backend frameworks (e.g. **NodeJS, Django**) and NoSQL databases (e.g. **MongoDB, CouchDB**).
• Some knowledge of frontend frameworks (e.g. **ReactJS, VueJS**) and fluency in **English** is preferred.

The company:

Airbot Technology Limited is the worlds leading **customer service platform for the airport industry**. We have developed a software-as-a-service platform **allowing airports to communicate efficiently** with passengers on their websites, mobile applications or 3rd-party messaging applications. We are currently working with more than 80 airports around the world, including Frankfurt, London Gatwick, Lisbon and Sydney airports.

Your recruiter:

Isiris and Carolina, Talent Acquisition Specialists @ Effitalents.
