Job Summary

Vacancy:

Deadline : Nov 25, 2024 Published : Oct 25, 2024

Employment Status: Full Time

Experience: 3 - 5 Years Salary: To be defined

Gender: Any

Career Level : Mid Level

Qualification:

Responsibilities

- Develop high-quality, **scalable solutions under tight deadlines** to meet the needs of our demanding users
- Tackle challenging production issues when they arise, providing expert **3rd level support** to resolve critical problems
- Collaborate closely with business stakeholders and IT teams to gather requirements and ensure alignment with business goals
- Contribute to **software architecture and design decisions**, ensuring our solutions are robust and scalable
- Enhance and maintain a robust automated test suite, ensuring high test coverage
- Engage in continuous improvement initiatives, embracing best practices and innovative solution

Requirements:

Technical Excellence:

Proficiency in building scalable applications with **ASP.NET/C#**. Strong understanding of algorithms, data structures, and API development

- Problem-Solving Prowess: Ability to tackle complex challenges with innovative solutions
- Curiosity and Eagerness to Learn: Passion for learning and adapting to new technologies, especially in a fast-paced environment
- Collaboration: Experience working **in agile teams and a strong desire to collaborate** with peers and business stakeholders
- Database Knowledge: Familiarity with both relational and non-relational database systems
- Communication Skills: Fluency in **English**, with the ability to communicate complex technical concepts clearly

Nice to have:

- · Experience with capital markets
- Experience with position-keeping systems like Sophis
- Familiarity with design thinking techniques and iterative sprints
- Experience with messaging systems integration (e.g. RMQ, Kafka)

The company:

It is a fintech company with a leading marketplace for structured investment solutions.
